We are constantly adding new plans. If you do not find your plan on this list and would like to see if your HealthTexas Doctor accepts your insurance plan, or would like your insurance benefits verified prior to treatment, you can call your clinic location and speak with one of our associates. Due to the limitation of Insurance Carriers' phone lines, we may not be able to provide this service after 5pm. Verification of coverage and benefits is not a guarantee of payment and actual benefits can only be determined after the carrier receives a claim.
